

**EXPRESSION OF
INTEREST FORM**

AMETHYST: A multicentre, double-blind, placebo-controlled randomised trial comparing a combination of methotrexate (MTX) and mifepristone versus methotrexate alone as a medical treatment for tubal ectopic pregnancy (tEP)

Funder: NIHR Sponsor: University of Aberdeen/NHS Grampian

Please return your completed *Expression of Interest* to the AMETHYST Trial Manager Claire Cochran at amethyst@abdn.ac.uk

1. Site information

Site name

Department

2. Contact details for Principal Investigator (PI) at site

Name

Email

Telephone

(please attach CV and current GCP if available)

3. Contact details for lead Research Nurse (RN) at site (if known)

Name

Email

Telephone

(please attach CV and current GCP if available)

4. Contact details for co-investigators at site (if known)

Name

Email

Telephone

(please attach CV and current GCP if available)

5. Associate PI scheme

Are you interested in being involved in the [NIHR Associate Principal Investigator Scheme?](http://www.nihr.ac.uk/health-and-care-professionals/career-development/associate-principal-investigator-scheme.htm)
(www.nihr.ac.uk/health-and-care-professionals/career-development/associate-principal-investigator-scheme.htm)

Yes / No / Unsure

6. R&D contact (if known)

--

7. PI's previous involvement in research

Current or recent (within 5 years) involvement in research

Drug study: Current Recent
Other study: Current Recent

Date of last GCP training

--

If you have previously been involved in research:

What was the site recruitment target in terms of the overall recruitment target?

--

Was it met?

Yes No

If not, any explanation of why not.

--

If you have not previously been involved in research:

Has your

- lead RN (and/or)
- co-investigator(s)

had current (within 5 years) involvement in research drug study:

Current Recent

Other study:

Current Recent

Please provide any other information relevant to research experience

--

8. Participant enrolment

Can you estimate how many eligible participants your site could recruit to AMETHYST per month?

--

Total number of ectopic pregnancies / tubal ectopic pregnancies per year

--

Number of tubal ectopic Pregnancies treated with MTX

Are you aware of any other research studies ongoing at your site or likely to be conducted whilst AMETHYST is ongoing that may have a conflicting interest with this study? Please give details

What challenges, if any, do you foresee with recruitment and/or retention within AMETHYST at your site?

Sites will be opened to recruitment in a phased manner over 9 months from approx. August 2025. Any preferences for when your site would open to recruitment?

2025 (Q3/4)

2026 (Q1/2)

9. Staff, facilities and resources

Are there staff available (e.g. research nurse) to support recruitment and retention in AMETHYST?

Do you routinely take progesterone serum levels in the diagnostic process for ectopic pregnancy?

Would your laboratory support progesterone levels being taken at the same time as all hCG blood tests as per routine methotrexate follow up?

Do you have access to other resources to support AMETHYST (e.g. clinical space/computers/space for recruitment)?

10. After English, what would you say are the top 3 other languages spoken by patients at your site?

11. How do you manage locally with translation of medical information for non-English speakers/readers? Do you use Language Line?

Thank you for completing this expression of interest.

Please return the completed form to amethyst@abdn.ac.uk

We look forward to working with you.
